---

FULL STACK DEVELOPER

Full Stack Developer with **3.0 years** of hands-on experience in designing, developing, and deploying scalable web applications. Proficient in front-end technologies like **React Native**, **React JS**, **Javascript**, **HTML, CSS, SCSS** and skilled in back-end development using **Node.js** and **Express**. Experienced in building RESTful APIs, integrating databases, and optimizing application performance.

KEY COMPETENCIES

React Native, React Js	Node JS + Express	Bootstrap, Tailwind, Material UI
Redux, Redux Toolkit, Zustand	Database - MongoDB	Javascript, Typescript, HTML,CSS
Web3 Integration	Docker / CICD	Testing - Vitest, Jest

PROJECTS

TutorHail Application

A social learning mobile application on Google Play Store and App Store, enabling interactive student–tutor learning. Built end-to-end using **React Native** and **Node Js**, focusing on performance, scalable architecture, and intuitive UI/UX. Supports online/offline teaching, group and one-on-one classes with scheduling, user authentication, content sharing, and engagement-driven workflows.

GetProp

Comprehensive real estate application for buying and selling properties with an enhanced user experience. Built using **React Native** with **Node.js backend support**, integrating Mapbox, voice recognition, AI-powered chatBot, and short property videos. Features include interactive property maps, voice-guided navigation, and engaging video content.

Krafo

A marketplace platform enabling users to buy and sell products. Built using **React.js, Redux Toolkit,** and **TypeScript**, with features like advanced search, user reviews, and secure payment processing. Achieved a user-friendly interface, facilitating seamless buying and selling experiences from the ground up.
